Building Materials

Steady Capacity Expansion and Profitability Enhancement

Building Ceramics

- Price adjustments across sales regions have driven year-on-year growth in average tile prices
- The Côte d'Ivoire Ceramic Project and Kenya Ceramics M&A Project are scheduled to start production by mid-2025
- Capacity expansions and other upgrades are progressing steadily, with some projects already completed

19 production lines in production

2 production lines under construction

Building Glass

- Capacity utilization rates and profitability are in line with expectations
- The Peru Glass Project is scheduled to start production by 2026

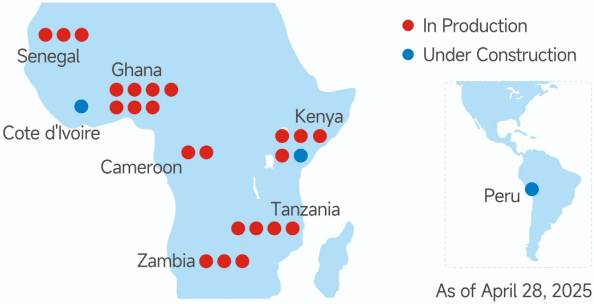
2 production lines in production

1 production line under construction

Sanitary Ware

- The Kenya Sanitary Ware Project has demonstrated improved profitability
- In-house mold workshop now operational
- Ongoing optimization of formulations and process improvements continue to drive cost reduction and efficiency gains

2 production lines in production



As of April 28, 2025
